

DJÉNÉBA COULIBALY

Data Scientist · Machine Learning & Generative AI

Île-de-France, France · djenebacoulibaly.pro@gmail.com · +33 7 58 08 06 79

[LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFILE

Data Scientist specialising in machine learning and generative AI, with 1 year and 4 months of data experience in insurance and logistics and an MSc in Econometrics & Data Science taught entirely in English. Covers the full data lifecycle, from architecture design (Python, FastAPI, Docker) to business-facing solutions in production, on a strong statistical and econometric foundation. Looking for a permanent Data Scientist position in the Paris area, available now.

PROFESSIONAL EXPERIENCE

Data Scientist – AI | DIOT-SIACI, insurance brokerage — Paris

Sept 2025 – Sept 2026

- **Anomaly detection (health claims).** Design and deploy a multidimensional scoring system (Z-scores, time series) to flag atypical reimbursements, narrowing over 100 suspicious cases down to 3 targeted files; the weighted scoring mechanism became the team's standard prioritisation method.
- **NLP & generative AI on customer verbatims.** Industrialise a semantic analysis pipeline (Mistral Large 2 via Snowflake Cortex) covering taxonomy design, prompt engineering and classification, delivered as a Streamlit application used autonomously by business teams.
- **Customer survey analytics.** Process satisfaction, product and usage surveys end to end and deliver dynamic dashboards that redirected commercial priorities on factual evidence, with strong internal feedback.

Data Scientist – Internship | DEKI, green logistics — Marseille

May – Aug 2025

- **Route optimisation.** Developed an algorithmic solution (PyVroom) to shorten carrier routes, targeting up to 80% CO₂ reduction compared with the initial organisation.
- **Predictive models.** Contributed to the evolution of existing predictive models exposed through REST APIs on cloud infrastructure (Scaleway).
- **Data analysis & visualisation.** Ran exploratory analysis and feature engineering, prototyped KPI dashboards (Figma) and delivered decision-support indicators (Excel) to operational teams.

EDUCATION

MSc Econometrics & Data Science | Aix-Marseille School of Economics (AMSE)

2024 – 2026

Programme taught entirely in English, with honours. Key coursework: regression, classification, clustering, neural networks, time series and forecasting, explainable AI (SHAP), causal inference in machine learning.

BSc MIASHS (Mathematics, Computer Science & Social Sciences) | Aix-Marseille University

2021 – 2024

Mathematics · Computer science · Econometrics · Optimisation · Web and object-oriented programming.

PROJECTS

Generative AI business automation platform | Entrepreneurial project, beta phase

2025 – Present

- **LLM & data pipeline.** Integrated the Claude API (Anthropic) with function calling across 11 business tools and anti-hallucination guardrails, plus multimodal extraction from receipt photos into a multi-tenant PostgreSQL database.
- **Deployment.** Shipped a secured production setup (Docker, FastAPI, Nginx, Linux VPS) with dashboards generating real-time insights.

Supervised classification of dry bean varieties | Academic project, AMSE

Jan 2026

- **Machine learning.** Built a full pipeline (EDA, SMOTE, stratified cross-validation) on 13,543 observations and selected an RBF SVM reaching 93.6% accuracy.
- **Critical analysis.** Demonstrated the negative impact of PCA reduction on class separability.

TECHNICAL SKILLS

ML & Statistics: Classification, regression, clustering, scoring, anomaly detection, time series, causal econometrics

Generative AI: LLMs (Claude, Mistral Large 2), Anthropic API, prompt engineering, RAG pipelines, document extraction, n8n

Languages & Databases: Python (pandas, NumPy, scikit-learn), SQL · R and VBA (basics) · PostgreSQL, MongoDB, Snowflake

Deployment & Cloud: Docker, Docker Compose, FastAPI, REST APIs, Git/GitHub, Scaleway, Snowflake Cortex, Streamlit Cloud, JWT/OAuth2, RBAC

Data & Visualisation: Alteryx, Tableau Desktop, Power BI, Streamlit, Plotly, Dataiku, advanced Excel, Figma

CERTIFICATIONS, LANGUAGES & MISCELLANEOUS

Certifications: Dataiku Core Designer · Power BI · Alteryx · Generative AI

Languages: French (native) · English (fluent, full MSc taught in English)

Miscellaneous: General Secretary of a student-run data analytics company · Available now, Île-de-France · References available on request
